—Saturday evening, when John Speer was driving to his home, near Oregon, in his car, while going up the Forest City hill, met another car coming this way. The lights on the other car blinded John so bad that when he pulled out to pass the other car, he ran into a wagon, which had a gasoline engine on it, left on the south side of the road by Ellis Acton, near the M. V. B. Case home. He had his radiator smashed, a fender bent, and injured his car in other ways. We hope some people will learn that there is a law requiring all cars to have dimmers on them.

It was fortunate that the leg was not broken and he was not injured seriously.

### River Bank Protection.

In view of the growing interest in river bank protection, a district has been formed at Forest City. Tuesday, a committee, composed of Henry Schaeffer, Philip Schlottzauer and Omer Williams, left Forest City, in company with E. R. Willis, who is assisting in the formation of these districts, for an inspection of work and results accomplished by the Woods Brothers Construction Co., of Lincoln, Neb. This trip will take in work done for railroads, farmer districts and farm land owned by Woods Brothers. The party will first go to Omaha and from there will drive to ten or twelve different jobs in that vicinity. They will see the work being installed, and later will see the results accomplished by other work that has been in for several years. As all of the men on this committee are conscientious, reliable citizens, interested in the welfare of the community, we can rely on their report. This will settle any doubt as to the efficiency of this form of bank protection, which we understand, is not only cheaper than any other, but is the most permanent yet invented.

### A TIP TO FARMERS.

Every farmer does business on his own or borrowed capital. In either case it is essential for him to have a bank account and do all his business through the bank.

Those who have ready cash need never to worry about the safety of their money nor have any fear of having to pay bills the second time if all current funds are deposited and bills paid by check. The farmer who does not at all times have sufficient capital can put his business on a cash basis and in many cases save interest by patronizing OUR BANK.

In purchasing goods some firms give a discount for cash, in such cases you can save interest by coming to us for a loan and pay cash for your purchase.

FOREST CITY MISSOURI

## A Trip to Yesterday

and Tomorrow!

Your Railroad Offers Reduced Rates

THE MISSOURI of Marquette's time, of Daniel Boone's time, of Doniphan's time, is beautifully portrayed in "The Pageant of Missouri," along with an exquisite symbolical representation of the Missouri of the future.

"The Pageant of Missouri" is one of the great features of the Missouri Centennial Exposition and State Fair in Sedalia, August 8-20.

Hundreds of other features are just as interesting. Ruth Law's Flying Circus, with all its three rings, uses the clouds as its tent. Louis James, a member of the Circus, hangs by his teeth from a speeding plane! He also leaps from a racing auto into a low-flying airplane!

The Ruth Law Circus flies by night as well as by day, in planes brilliantly illuminated with fireworks.

Prize money totaling \$93,220 is attracting some of the most magnificent exhibitions of Missouri products that have ever graced State Fair buildings.

Live stock of the kind which helps to keep Missouri in the front ranks is entered, along with educational exhibits and products of the fields.

Good old horse racing, in which many Grand Circuit horses will participate, is another attraction in store. Booklet "G" tells you everything there is to know about the Exposition.
